

# GTNT Group - Australian Apprenticeship Support Network

## About Us

In February 2020 GTNT Group secured the Australian Apprenticeships Support Network Contract (2020 - 2022) and trades as GTNT Group Australian Apprenticeship Support Network (AASN). GTNT Group AASN continues to provide an invaluable service to Apprentices and Employers and many other stakeholders that play a part in the Australian Apprenticeships scheme.

GTNT Group AASN is the only Australian Apprenticeship Network in the NT and is unique in the fact that we are jointly funded by both Australian Government and NT Government to provide both administrative and regulatory functions on their behalf. GTNT Group AASN are part of many different NT based Committees and Working Groups and will continue to hold these representations to better improve the uptake and completions of Australian Apprenticeships in the NT. GTNT Group AASN on request can provide Information Sessions directly with schools, employers and potential apprentices and trainees.

## Universal Services

GTNT Group AASN manages and processes Training Contracts, Government incentives and Apprentice and employer information. GTNT Group AASN also promotes Australian Apprenticeships and provides information at shows, exhibitions, industry forums, workplaces, schools, employer and community groups.

## Gateway Services

GTNT Group AASN provides a job matching service specialising in Australian Apprenticeships (traineeships and apprenticeships) for both employers and job seekers. If you're a jobseeker looking for work, thinking about getting back into work, or an Employer looking to employ an Apprentice or Trainee, GTNT Group AASN Gateway Services have experienced and qualified people who can help. They will provide one- on-one support to help you connect with the learning, training and work opportunities available to you.

## In-Training Services

GTNT Group AASN provides high levels of In-Training support which will be provided to Employers, and Apprentices. Referral advice will be provided for crisis support for serious issues by referring to or linking with expert support agencies and other specialty service providers. This service will support the apprentices to address serious issues and provide a safety net for self-referral.
